

New England HIV Implementation Science Network Work Group Meetings & Workshop

Friday, February 27th, 2015
Publick House, 277 Main Street, Sturbridge, Massachusetts

Objectives

- Meet your Work Group and Network colleagues
- Contribute to the development of a common framework and understanding of implementation science as it applies to HIV prevention and care in small urban areas
- Prioritize your Work Group key objectives
- Develop an action plan to accomplish Work Group key objectives
- Identify opportunities for collaboration across Work Groups and New England region

Program Preview
